

Fitch Mountain COPE Reflective Sign Supplier Details

Address signs for residences:

1. 6" X 24" green reflective aluminum blanks are required for code-compliant vertical address signs (code requires 4" numerals). These are mounted at the roadway. (\$9.00ea)
2. 6" X 18" green reflective aluminum blanks will work for horizontal address signs. These are mounted at the roadway. (\$7.50ea)
3. 5" X 14" green reflective blanks are used for house number signs (you can use 3" numerals on these). These are mounted on the dwelling. (\$6.50ea)
4. 4" numerals are used on signs mounted at roadway (\$5.50 for 25 of any numeral)
5. 3" numerals can be used on house signs. (I think they're \$4.50 for 25)
6. We also keep around a few arrow decals too for when you need to point out which house the address applies to.

We buy our supplies from Interstate Signs out of Crestline, OH. They have a web site www.interstate911.com but it's not very sophisticated. You might want to just call:

Interstate Sign Products

Toll Free: 800-344-0528

Local: 419-683-1962

E-Mail: 911signs@interstate911.com

They will also take on projects to make signs with addresses for you. Call them to discuss.

If we need a multi-address sign, like for a cull de sac or a dead-end road, we design and purchase them online at www.SmartSign.com.

Any questions, don't hesitate to email (patabercrombie@comcast.net) or call me 707-473-8217.
